HAFIZ AZAN
FRONTEND DEVELOPER

SUMMARY

As a dedicated Frontend Developer with 1 year of experience, I specialize in building responsive and user-friendly web applications using HTML, CSS, JavaScript, and React.js. I am passionate about creating clean, efficient code and delivering visually appealing interfaces. I have a strong understanding of modern web development practices and a commitment to staying up-to-date with the latest technologies. My experience also includes collaborating with cross-functional teams to bring projects from concept to completion

SKILLS

- HTML CSS
- JAVASCRIPT
- OOP
- REACT JS
- REACT NATIVE
- GITHUB
- NEST JS
- BOOTSTRAP
- TAILWIND CSS
- REACT QUERY
- REDUX & TOOLIKT &THUNK
- ANT DESIGN
- REACT NATIVE PAPER
- MATERIAL UI (MUI)
- ZUSTAND
- RESPONSIVE WEB DESIGN

WORK EXPERIENCE

AUG 2023 - Present
At Squad Coders Dev

FRONTEND WEB DEVELOPER

HTML & CSS :

I have created this project using HTML, CSS, and a bit of animation. I have utilized Flexbox, which is very helpful and easy for developers in today's era. Additionally, I made it responsive.

https://github.com/HafizAzan/My-Project/tree/main/Code_Genius

JAVASCRIPT:

This project is specially created using JavaScript, featuring added functionality such as search filters and delete options. Animations have been incorporated, using AOS for scroll-based animations and Animate.css library for non-scroll animations. Additionally, I have used the Swiper.js library and created flip cards.

REACT JS :

Blog-Post-Api: This is the biggest project I've created using React.js. I built it using React Router, React Query, and Ant Design APIs, which taught me how to work with React.js and instilled in me a passion for it. Today, it is at the top of my favorite libraries/frameworks list, and I wish to continue working with it.
